

Company Profile

Van Biljoens Appliance Services & Air Conditioning

Van Biljoens Appliance Services & Air Conditioning has served Pretoria since 1956. Three generations of technical expertise stand behind every installation, repair and quotation we deliver.

We are an air conditioning, refrigeration and appliance specialist. We supply and install leading air conditioning brands, build and service cold rooms, look after commercial and industrial refrigeration, and repair domestic appliances through our own workshop in Gezina, Pretoria.

Our approach is straightforward: assess the situation, recommend what is genuinely right for it, quote transparently, and stand behind the work. That is how we have kept customers for decades.

Our Services

Air Conditioning Installation

Supply and professional installation of midwall split, cassette, ducted and other air conditioning systems for homes, offices and commercial spaces across the Pretoria region.

Air Conditioning Repairs & Service

Diagnosis, repair, regassing and routine servicing of air conditioning systems to keep them running efficiently and reliably.

Cold Rooms

Cold room solutions for businesses that need reliable refrigerated storage — from supply and installation through to ongoing maintenance and repair.

Commercial Refrigeration

Refrigeration support for shops, restaurants and commercial premises, keeping stock cold and equipment dependable.

Industrial Refrigeration

Refrigeration expertise for larger industrial requirements, backed by decades of hands-on technical experience.

Appliance Repairs

A dedicated appliance repair workshop in Pretoria. Bring your appliance in, or ask about our collection and delivery service — every repair is assessed, quoted and approved before any work begins.

Air Conditioning

We supply and install the following air conditioning types:

-
- Midwall split air conditioners
 - Ceiling cassette air conditioners
 - Underceiling air conditioners
 - Portable air conditioners
 - Hideaway / ducted air conditioners
 - Specialist caravan air conditioners

Brands carried: Samsung, LG, Carrier, Alliance, Alliance Comfee.

Appliance Repair Workshop

1. Booking & drop-off / collection

Bring your appliance to our Gezina workshop, or arrange our collection and delivery service. A transport charge applies when we collect and deliver.

2. Assessment

An upfront assessment fee of R300 is paid at drop-off. It covers inspection, testing and diagnosis of the appliance.

3. Quotation

We provide a written quotation, typically within 1–3 working days (depending on suppliers confirming pricing and the availability of spares).

4. Your approval

No repair work begins until you approve the quote. If you accept, the R300 assessment fee is deducted from the repair cost.

5. Repair, testing & return

Approved repairs are carried out, tested and quality-checked, then the appliance is ready for collection or delivery. If a repair is declined or the appliance is not repairable, the assessment fee is non-refundable; for collected items, transport plus the assessment fee applies.

Service Area

Pretoria CBD · Pretoria East · Pretoria North · Pretoria West · Centurion

We serve the complete Pretoria region and surrounding areas, including Centurion. We do not cover the whole of Gauteng province.

Why Van Biljoens

- Established in 1956 — three generations of technical experience.
- Our own appliance repair workshop in Pretoria, with collection and delivery available.
- Leading air conditioning brands, with honest recommendations rather than hard selling.
- Transparent, written quotations — you approve before any work starts.
- Product specifications detailed enough for both homeowners and contractors.
- A long-standing local business with a real address and real reviews.
